

Iowa's community-based providers serve 705 of Iowa's 947

communities via fiber, cable modem, fixed wireless or copper networks. Our members have headquarters in 65 counties and provide communications service in 97 counties.

We are a fiber-rich state!

- 483 Iowa communities have fiber-to-the-home (FTTH) service offered by ICA member providers
- 372 communities have gig-capable service offered by ICA members
- 328 communities served by ICA members have FTTH to every single household and business – even those outside of city limits on acreages and farms
- 155 additional communities served by ICA members have some FTTH
- ICA members have deployed over 35,753 miles of fiber optic cable in Iowa

35 member companies offer fixed wireless/WISP service to over 100 towns and unincorporated areas

ICA members serve anchor institutions including:

- 236 school districts and over 365 buildings
- 886 cell towers
- 526 healthcare facilities
- 416 fire departments
- 288 libraries
